Subject: Tri-cities work in progress

Dear Carrie:

As I promised you something by noon today here's what I put together thus far. As I'm recommending { **Ex. 5 - Deliberative Process** } I skipped to the final section. I still have a lot to do insofar as filling in the blanks. I'm at a significant disadvantage as my only direct knowledge of the site concerns several hours with Carol, the Corps and project applicants on 10 Jul 14—a circumstance { **Ex. 5 - Deliberative Process** }. I do however have significant experience(approx. 37 years) in the region regarding similar ecological systems.

Ex. 5 - Deliberative Process

I'm going to take a quick "breather" and then get back to work soon. I'll be in tomorrow.

Ex. 5 - Deliberative Process, non-responsive

Best regards,

Charlie
